## GUIDE

### COMPLETE OBJECTIVES

Complete objectives to help you escape, then make a dash for the Escape Gate before time runs out!

### CRAFT ITEMS

Search the environment for Crafting Kits and Scrap, and use them to craft weapons and gadgets. Sweet!

### ESCAPE GATE

As a survivor you'll need to escape before time runs out. Complete objectives and open the escape gate, but remember ...once you open the escape gate you only have 45 seconds before it closes forever! The more people that escape, the more trophies you win!

### WATCH OUT FOR TRAPS

The Killer can place traps on the ground or plant poison in scrap spots. Traps glow red for every when spotted by the Scout!

### RESCUE YOUR FRIENDS

When a friend is killed they can respawn in rescue rooms. Find these rooms and rescue as many people as you can!

## TIPS

VENT

Use vents to brutally drag survivors in for the insta-kill. They won't be floating down here thats for sure.

SKYLIGHT

Find skylights to perform death from above. BOOM! headshot.

WALL

Use the walls to come smashing through and bring the fun. Can you say OH YEAH!

## POISON GAS

While survivors search for scrap, why not plant some poison gas for their enjoyment? Gas disorients them and inverts their controls..a perfect time for an attack!

## LAY TRAPS

Place wire traps to snag survivors, or just spam it to cause total havoc. When you're invisible you'll see the icon on the ground - just click to place!

## SPAWN / UNSPAWN

If not in line of sight or too close to Survivors, press [F] to turn invisible and move extremely fast using sprint.
